SATURDAY, MAY 21, 1859.

We have been suffering, in the past three days with a severe attack of intermitting fever, and do not feel able to write much editorial.

## A Word to Parents:

It is a well known fact that the provision made by law for the support of our Free Schools is altogether inadequate. Last year, the schools were kept up by voluntary contribution; but that method has proved so unsatisfactory, and so many have refused to pay their subscriptions, that it is not probable will be again tried.

The public funds will only be sufficient to keep the schools up until the end of June, when, if no other arrangements are made, they must be closed until next spring. Are the parents in sympathy willing to submit to this loss of educational privileges for their children, or will they

not rather make an effort to keep the schools open by voluntarily paying the amount necessary to defray the expenses of tuition?

It is a matter which comes home to the feelings of every parent, and is deserving their most serious attention. It has been proposed

that the School Trustees make an accurate estimate of the actual cost of tuition, in each of

the several classes, and charge each pupil a regular quarterly sum, sufficient to pay the teachers' salaries. In this way the school might be kept open and our children educated; and such one would pay in exact proportion to the benefits received, so there need be no complaining as was the case last year, that some paid less than others. This seems to be the only feasible plan of keeping the school open, and we submit it to the consideration of those who have children to educate, that they may be prepared

to act when called upon to say whether they will be willing to pay for educating their children with such time as the next year's public school fund shall be received.

*Editorial Convention*—It is proposed to hold a convention of the editors and ex-editors of northern Indiana, at Plymouth, on the 14th of June next, "for the purpose of consulting upon and adopting such measures as may be thought necessary for the benefit of the craft." We hope they may have a good and pleasant time; but we do not anticipate any pecuniary benefit to arise to the craft from the convention. Such conventions have frequently been held, but have always proved barren of results. A string of resolutions about the dignity of the press, the courtesy due gentlemen, &c., are usually adopted and a few of the more ambitious of the newly flogged editors seize the opportunity to make speeches complimentary to the craft generally, and especially to those present. They then go home, forget all they have done, said, or resolved, fall into their old habits and perhaps abuse each other like pickpockets. The proposed convention at Plymouth we cannot expect to be any better than previous ones, and therefore predict it will prove a failure, so far as any practical results are concerned. Still, it will be a pleasant trip, and give the craft an opportunity of becoming personally acquainted with each other. We hope they may have a pleasant time and enjoy themselves highly.

*Arrival of the WESER and BORUSSIA!*—The steamship Weser and Borussia from Braunschweig, bringing Liverpool to the 3rd inst, three days later than those furnished by the Adelaid and Persia, arrived here this evening at half-past six o'clock.

The screw steamship New York arrived at Cowes on the 30th ult. The Canada arrived on the 21st. The reported wreck of the clipper-ship Pomona proved to be true. She was wrecked off Wexford, Ireland, and three hundred eighty-six lives were lost. She had on board three hundred and fifty-four passengers and fifty-two of the crew, of whom seventeen of the latter were lost. The ship sank in nine minutes of water.

There was a sharp action at the Bridge of Buffalora, on Thursday, the 28th ult. It is reported that the Austrians, after a considerable loss, took it at the point of the bayonet.

It is also reported that Mortara has retreated before the Austrians, near Lake Maggiore.

The telegraph lines to Switzerland have been cut by the Austrians.

*Vienna, May 1.*

The Austrians have occupied Intra, Palanza and Arona, the Sardinians retreating at their approach.

Turin, April 28.

The steamer which arrived at Genoa on the 27th, brought a proclamation to the Tuscan army, inviting it to await the signal of war, and advance in a compact body of twelve thousand men, to reinforce Piedmont.

A similar proclamation has been addressed to the troops in the Piedmont.

Turin, April 29.

Generals Canrobert and Neill have arrived here, and gone to join the king.

The Austrians are concentrating in great masses at Piacenza, where a proclamation has been issued by the Austrian Commissioner Extraordinary.

Fifteen thousand of the French Imperial Guards land to-night at Genoa, making the force there forty thousand men.

The force at Suza is also increasing fast.

Turin, April 30.

The official bulletin confirms the passage of the Ticino by the Austrians, yesterday.

King, accompanied by Generals Canrobert and Neill, crossed the river Dora. The corps d'armes, which entered Piedmont by Gravellona, consists of twenty battalions and eight batteries of canno.

Turin, April 31.

The King has gone to assume the command of the Army. The Austrians are at Novara in force, and about Pavia. The French infantry and artillery continue to arrive. No decisive movement has yet been made.

*Sudden Death.*—Yesterday, a man named James Rogers, who had brought a load of wood to town, for sale, suddenly dropped dead in Remmick's bakery, where he had stopped in to receive pay for his wood. The deceased, it appears, was subject to fainting fits, and it conjectured that while suffering from one, he fell over a barrel and possibly dislocated his neck.

*Loring of the Wabash & Erie Canal.*—A contract for the repair and management of this work was closed, at the Bramble House in this city, yesterday between Thomas Dowling, Esq., in behalf of the Board of Trustees, and Hon. A. P. Edmonson in behalf of an association of citizens residing in the different towns along the canal, mostly grain house owners; which, with the co-operation and patronage of shippers in this valley, will secure a permanent maintenance of the work. It embraces the division from Terre Haute to the State line, and extends for the term of four years, but may be increased at the end of two years, to five. The contract, as now made, provides for compensation the tolls and water rates of the canal, after paying certain specified sums as an annual rent.

This trust created by the State debt act, of course continues, and the Trustees remain in legal possession of the work, receiving and disbursing its revenues, for the purposes of the contract. The important repairs are made under the direction of the Chief Engineer appointed by the Trustees. The high character and responsibility of the gentlemen engaged, and satisfactory progress, are evident. Hon. A. P. Edmonson, of Ohio, still acts as the general superintendent of the work, devoting his entire time to its interests.—*Logistic Journal*, 14th.

*THE PROCEEDINGS OF THE ALLEN CIR-*

*CUIT COURT, MAY TERM, 1859.*

On the opening of this Court of Tuesday the 18th instant—Hon. R. R. Wilson, presiding.

Judge Morris, Esq., arose and announced in a most appropriate manner, that on Saturday morning, May 14th, 1859, at two o'clock, the Hon. R. J. Dawson, late one of the members of this bar, and the immediate predecessor of Judge Wilson on the bench of this Court, had departed this life upon which a meeting of the bar was called, when his Honor Judge Wilson, appointed Meers, David H. Colicker, John Morris, Wm. M. Crane, and Hon. C. Case, as a committee to report, suitable resolutions for the occasion, and expressive of their deep sense of grief, and the high regard in which the deceased was held. Whereupon, in order for the transaction of the business, and in honor of the deceased, Judge Wilson adjourned court till Wednesday morning. On Thursday afternoon, 16th May, the committee appointed, came into Court and reported as follows:

To the Hon. R. E. Wilson, Judge of the Al-

len Circuit Court.

The committee appointed by your Honor on behalf of the members of this bar, to report suitable resolutions relative to the death of the Hon. Huben J. Dawson, ask to report the following:

Whereas, in the Providence of Almighty God, the Hon. R. J. Dawson, long a member of this bar, and but recently the Judge of this Court and of the 10th Judicial Circuit, has been called forever from his family, from us, and from a useful and honorable position in life—an event which took place at his late residence in Spencer, DeKalb county, Indiana, on Saturday morning, May 14th, at two o'clock—closing a life of forty-eight years, two months and one day and being the testing of that bar and court to which he gave his services—therefore,

Resolved, That in the death of the Hon. Huben J. Dawson, a calamity has befallen the pub-

lic, He, as a lawyer, was conscientious faithful, and energetic; as a legislator, honest, disinterested and patriotic; as a Judge, pure, impartial and unbiased; as a neighbor, kind, benevolent and considerate; as a husband, most constant, most affectionate and courageous; as a companion, chaste, full and entrancing; as a man of business sagacious and prudent; as a soldier, patriotic; as a husband, most constant, most kind indulgent; and finally, as a parent, most devoted; that the members of this bar will wear the usual badge of mourning for thirty days next ensuing.

Resolved, That these proceedings, we request spread on the order book of this Court, and the same be referred to the adjournment of the court, for such a space of time as in his discretion is meet. That a copy thereof be furnished the family of the deceased, who are hereby assured of our and the Courts unfeigned sorrow at their bereavement.

Resolved, That the same said proceedings be requested to be placed in the columns of all the prints in the city, as also of this judicial circuit.

C. CASE  
JOHN MORRIS,  
W.M. CRANE.

On the reading of the report, eulogies were pronounced by Messrs. Carson, Colicker, Jacoby, Hon. N. C. Case, John Morris, and W. S. Smith, Esqrs., and added to which, his honor Judge Wilson, paid a tribute to the deceased, as his predecessor, as also a member of the bar; whereupon the proceedings were ordered of record, and the clerk to certify the same to the papers of this. Then the court adjourned till Monday morning, May 23d—in accordance with the request of the bar, and in respect to the memory of the deceased.

such arrangement contains nothing that in the least degree could be interpreted as constituting a hostile alliance against France. If Lord Malmesbury should be questioned on the subject, he may answer with confidence in the above sense, and I give you my personal guarantee that the declaration will not be made by the facts.

# Fort Wayne Sentinel.

SATURDAY, MAY 21, 1859.

We have been suffering for the past three days a severe attack of intermitting fever, and do not feel able to write much editorially.

## A Word to Parents.

It is a well known fact that the provision made by law for the support of our Free Schools is altogether inadequate. Last year, the schools were kept up by voluntary subscription; but this has proved so unsatisfactory, and so many have refused to pay their subscriptions, that it will probably it will be again tried.

The public funds will only be sufficient to keep the schools up until the end of June, when, if no other arrangements are made, they must be closed until next spring. Are the parents in any way willing to submit to this loss of educational privileges for their children? or will they not rather make an effort to keep the schools open by voluntarily paying the amount necessary to defray the expenses of tuition?

This is a matter which cannot be left to the feelings of every parent, and is deserving their most serious attention. It has been proposed that the School Trustees make an accurate estimate of the total cost for tuition, in each of the several classes, and charge each pupil a regular quarterly sum, sufficient to pay the teachers' salaries. In this way those who might be kept at home and our children educated, and each one would pay in exact proportion to the benefit received, so there need be no complaining, as was the case last year, that some paid less than others. This seems to be the only feasible plan of keeping the school open, and we submit it to the consideration of those who have children to educate; that they may be prepared to act when called upon to say whether they will be willing to pay for educating their children, still such time as the next year's public school fund shall be received.

**Editorial Caucaon.**—It is proposed to hold a convention of the editors and ex-editors of northern Indiana, at Plymouth, on the 11th of June next, for the purpose of consulting upon and adopting such measures as may be thought necessary for the benefit of the press. We hope they may have a good and pleasant time; but will not anticipate any peculiar benefit to bring the draft from the convention. Such conventions have frequently been held, but have always proved sources of results. A string of editorials about the dignity of the press, the courage of the gentlemen, &c., are usually adopted, and a few of the more ambitious of the newly-jledged editors seize the opportunity to make speeches complimentary to the press generally, and especially to those present. They then go home, forget all they have done, and resolved to fall into their old habits and perhaps abuse each other like blackguards. The proposed convention at Plymouth we cannot expect to be any more than previous ones, and therefore predict it will prove a failure, so far as any practical results are concerned. Still, it will be a pleasant trip, and give the press an opportunity of becoming personally acquainted with each other. We hope they may have a pleasant time and enjoy themselves highly.

## ARRIVAL OF THE WESER AND BOR-

**RUSSIA!!**

Now York, Sunday, May 15.

The steamship Weser and Borussia, from Liverpool and Southampton, bringing Liverpool to the 2d inst., three days later than those furnished by the Adelaid and Perla, arrived this morning, May 23d—in accordance with the request of the bar, and in respect to the memory of the deceased.

In the Allen Circuit Court at Fort Wayne May 19, 1859.

I. D. G. NELSON,  
Clerk.

The steamer City of Hallimare and the Vandalia arrived out on the 4th inst.

The latest account from Italy is that though no actual conflict had yet occurred between the Austrian and Sardinian armies, intelligence of a conflict was expected at any moment. The Genoese Napoleon had sent a formal ultimatum to Austria to the effect of the Capo Logiwall, and also announced his intention to lead the army in Italy.

His departure was expected to the 5th instant. His manifesto stated that Austria had virtually declared war against France, and nothing remains for France but to take up the sword in defense of Italy.

Leavenworth, May 17.—A letter dated Fort Wayne, the 8th inst., says that the Pike's Peak emigrants are returning in droves. Nine hundred wagons passed the fort in a week.

The emigrants are in an extremely destitute condition, eating horses, wagons, and nothing for nothing.

The St. Joseph Gazette publishes a report of a serious difficulty between the inhabitants of Aurora and Denver City, resulting in the burning of both towns.

Local rivalry is said to be the cause. The report needs confirmation.

St. Louis, May 18.

**Delayed Condition of the Pike's Peak Emigrants.**—The St. Joseph correspondent of the Democratic papers the arrival at that place of one hundred returned Pike's Peakites, who bring deplorable accounts of the gloomy prospects and the suffering on the plains.

It is estimated that 20,000 men are now on the way back, all or most of whom are destitute of money and the necessities of life, and are perfectly reckless and desperate.

Threats are made of inciting Quanta, St. Joseph, Leavenworth and other towns, in consequence of the description of the inroads made by the negroes, after their arrival, into the country.

Two thousand men are reported fifty miles west of Omaha and his son under the care of the French people.

The French troops are passing into Piedmont.

The Austrian troops are concentrating along the Sesia, and had occupied Vercelli, Trieste and the surrounding country, which had been placed in a state of siege.

There was a sharp action at the bridge of Polifano, on Thursday, the 28th ult. It is reported that the Austrians, after a considerable engagement, took it at least six o'clock.
